

# **Prophecy Given At Word Of Life**

**By: Patricia Turner**

**Wednesday (During Prayer)**

**May 14, 2008**

*“It is the Church that is the citadel. It is the church that is to stand on the rock and tame the wilderness. It is the Church that is to be safety and strength. It is the church, it is the people of God that are suppose to save the people of the World and bring them to Christ. It is the church that needs to stand up and take its place. It is the Church that needs to look at the storm and say, ‘I will not be moved!’ It is the church that needs to look that storm in the eye and say, ‘I will not be lost! I will not be destroyed! I will not be harmed! I WILL NOT BE MOVED!’”*

---

*(Another Prophecy -Later On That Evening During The Service Time...)*

*“Petty things....it is the petty things. It is the petty things that you seek after and you spend the ‘God Time’ that I have sent you. It is the petty things that you still serve. Do you not understand? Do you not yet comprehend? I have called you to so much more! I have called you to so much bigger! I have called you to save the world! I have called you to save those that are dying without me. I have called you to save those that are lost and cannot see. I have called you. I have called you and I have told you many times that you are called. And still, and still, it is the petty things, it is the petty thing! Take authority, take authority and step into your place! Step into the place I have created for you. Take authority over those petty things. Deal with them and go on to what I have called you to be - what I have called you to do. It is time. It is time.*

***It is time. I can wait no longer for you. It is time. Open your eyes!  
Look, open your heart and see! Open your mind and understand!  
It will not stop. It is going to continue. It is begun. It has begun  
and it is unfolding before you as I told you that it would. It is  
unfolding before you and yet the people that I have called to do a  
role, the people that I have called to play a part are not there.  
You're not there How can I do what I need to do without you? You  
are my hands, you are my feet. I need you in place. I need you to  
step up! Step up. Step up and do it now!"***
